

JOB TITLE: Interior Drafter

Job Summary:

We at McLine Studios are seeking a highly skilled and experienced Interior Drafter to join our team. The successful candidate will be responsible for creating detailed drawings for Interior projects, working closely with our engineering team for our North American clients.

Key Responsibilities:

- Develop accurate and detailed drawings for custom interior projects.
- Creating high-level shop drawings including plans, elevations, sections, and details as per AWI/AWMAC/NKBA or any specific client standards.
- Stay current on industry trends and technologies to ensure the company is utilizing the most efficient and cost-effective methods.
- Continuously refine and improve your craft, pushing the boundaries of design and innovation.
- Bring your creative flair to the table and contribute to the company's reputation for unparalleled excellence.
- Fluent project communications with clients over calls and emails including kick-off calls.

Qualifications:

- A degree in architectural design or related field.
- Minimum of 3 - 6 years of experience in interior drafting and design.
- Proficiency in AutoCAD, Revit, and other design software.
- Knowledgeable in MS Office.

Salary:

Negotiable for the desirable candidate.

How many years of experience do you have in Architectural Drafting on Autocad?

Do you have experience in core Millwork for the US-based Architectural Industry?

Do you have experience in Furniture Drawings?

**Job Title: Millwork Drafter (Entry Level)****Job Summary:**

We are seeking a dynamic and detail-oriented individual to join our team as an Entry-Level Millwork Drafter. As a Millwork Drafter, you will play a crucial role in the design and production of high-quality millwork projects. This position is ideal for recent graduates or individuals with minimal experience who are eager to learn and grow within the field.

**Responsibilities:**

- Create detailed drawings and plans for millwork projects using computer-aided design (CAD) software.
- Collaborate with senior drafters and project managers to translate conceptual designs into precise, workable drawings.
- Review and revise drawings to ensure accuracy and compliance with project specifications.
- Identify and resolve discrepancies or issues that may arise during the drafting process.
- Participate in project meetings, providing input and updates on drafting progress.
- Actively engage in training programs to enhance skills in millwork drafting and design.
- Seek guidance and mentorship from experienced team members to accelerate professional growth.

**Qualifications:**

- Bachelor's degree in Architecture, Engineering, or a related field. Candidates with relevant coursework or certifications in CAD drafting will be considered.
- Basic proficiency in CAD software (AutoCAD, Revit, or similar).
- Familiarity with Microsoft Office Suite (Word, Excel, PowerPoint).
- Willingness to learn and adapt to new technologies and design methodologies.
- Ability to handle multiple tasks and deadlines in a fast-paced environment.

**Salary:**

Negotiable for the desirable candidate.
